

SÜLEYMAN DEVECİ

JR. COMPUTER ENGINEER

ABOUT ME

- I am 25 years old
- I live in Gazimağusa, KKTC

I first discovered coding during my high school years. After that, I was certain that I should pursue a degree in Computer Engineering, which I did. I received training in various programming languages during my university studies but I have the most knowledge in C#. I enjoy pushing my limits and continuously improving myself.

EXPERIENCES

- I am developing mobile games for 3 years with using C#
- I developed a website as my graduating project, using HTML and CSS
- I developed another website as a term project, using HTML, CSS and JS
<https://fotografoyla.tr.gg/>

EDUCATION

Bachelor's degree in Computer Engineering

Eastern Mediterranean University Class of 2022

- Received training in project planning and management, feasibility analysis, and related areas.
- Learned programming languages including Java, C, C#, Python, HTML, CSS and JS.
- Designed Android applications, Windows applications, and websites.
- Participated in numerous projects and works, both independently and as part of a team.
